

Assessment of Transferable Skills by Legal Guardians

Dear Parents and Legal Guardians,

As part of the *BOaktiv* program, your child receives a skills profile that highlights the transferable skills they have demonstrated through observation tasks or tests.

The Parent Assessment is also designed to give you, the parent and legal guardian, the opportunity to assess your child's interdisciplinary skills.

Your assessment will assist your child in developing his or her own capacity for self-reflection and realistic self-evaluation.

Please complete the form below and discuss your assessment with your child:

- How do you perceive your child at the moment?
- How does your child perceive themselves? Are there any daily situations that illustrate these observations?

When assessing your child, refer to the following scale:

A score of 3 means your child demonstrates the skill at a satisfactory level.

Assign 2 or 1 if the skill is less developed, and 4 or 5 if your child demonstrates it well or exceptionally well.

Assessment of Transferable Skills by Legal Guardians

Assessment Date: (current date) _____

Legal Guardian's Name: _____

Child's Name: _____
